long sought treasures.

As long as thirty years ago many energetic fortune hunters dug hoies in the land. One old bermit by the name of Isaac Williams had special faith and for years his daily occupation was the unceasing turning over of the soil. Long after he gave up the struggle for treasure and the struggle for existence, other men and women could be seen daily hiking to the scene of the search armed with disging implements.

about which everything is disposed, is the central library. The administration building will be to the right of the library, the rooms of the bursar and registrar on the first floor and the president's and other offices above. The department of physics will have the wing to the left of the library.

Coming again to the Esplanade front the arms of the section to the right or cast, the arms of the building that surround the minor court, will be devoted to general studies and biology, the latter occupying the inner wing parallel.

It is estimated that the new gymnatium will call for \$100,000 and that it will be spacious—about 40,000 square feet in area. It is to be up to date in all its appointments, including correctional rooms for those students who cannot take the regular work. At Technology physical training is a part of the curriculum and failure to fulfil the requirements in this may be quite as detributed to general studies and biology, the latter occupying the inner wing parallel.

And in that \$197.400 Tammany has to look to The Bronx and to Richmond for help. Manhattan is in the hands of the enemy. But Julius Harburger as Sheriff of the county of New York offered a haven to the fobless in the Tammany organization, starting off with his own \$40,000 a year, the sum of his salary and official fees.

Murphy Will Be Missing.

But now both the borough and the county are in the hands of Republicans-Marcus M. Marks as Borough President and Max S. Grifenhagen as Sheriff. Samuel S. Koenig, Republican leader, can look for fun in the political playground of the Sheriff's office, but Murphy—Mur-

phy won't be there.

The whole county ticket in The Brons, however, fell to Tammany with the exception of the County Judgeship. Louis Gibbs pulled his way into the seat of Justice even though his supporters were Justice even though his supporters were almost hopelessly broken in the fight against Tammany. That break in the county gave Tammany its richest hope for benefit—the administration of the new county of The Bronx.

The result is that the Sheriff's office fell to James F. O'Brien. The other jobs, except that of County Judge, also fell to Arthur Murphy, who is on good terms on Fourteenth street with his name-sake. The Borough Presidency, on which the opposition was not so sadly awry, feil to Douglas Mathewson, Deputy Comp-troller under Comptroller Prendergast, a fusionist.

In other words, the tiger has to feel his cubs for the next four years, in so lar as city patronage gives the provender, on less than \$200,000.

That is a sum so small that Charles F. Murphy and his associates on Four-teenth street will have to look eisewhere of they are to live—contracts, maybe, or so in order to get rid of them.
